## A Forest Is A Home

<b>K</b> <b>What I already know</b>	<b>W</b> <b>What I wonder about or want to know</b>	<b>L</b> <b>What I learned</b>
What do plants need to live?	What do plants need to live?	What do plants need to live?
What do animals need to live?	What do animals need to live?	What do animals need to live?

## Forest Poster

1. List the things you think a plant needs to live in this forest.

---

---

---

2. List the things you think an animal needs to live in this forest.

---

---

---

3. Pick one animal in the poster and write your ideas about how it might get what it needs to live.

---

---

---

4. Do you think the plants in the forest depend upon the animals that live in the forest? Why or why not?

---

---

---

5. Do you think animals in the forest depend upon the plants that live in the forest? Why or why not?

---

---

---

6. What other relationships are there among the plants and animals in this poster?

---

---

---

7. If we came back and took a picture of this same forest in six months, do you think it would look different than it does now? Do you think different things would be happening here? Explain your answer.

---

---

---

8. Pretend that humans decided to build a mall in part of this forest. What do you think would change?

---

---

---

9. What is one interesting thing you notice or have a question about?

---

---

---
